Project Highlights

NailStyle
- Responsive nail salon booking website with an admin panel built on React.js, Node.js, Express.js and MongoDB
- Used CRUD operations to interact with API endpoints
- Tested API endpoints using Postman to ensure correct data transfer
- Website found at *hxnails.ca*

MENJI
- Database project tasked with building a functional website following REST API standards.
- Followed good UI/UX designs and utilized Bootstrap to develop a mobile-friendly website

MAKEAPP
- Developed iOS mobile app for users to share their step-by-step makeup routine
